

Dear student,

Due to the many short-term and numerous changes of courses before the beginning of the semester, we have decided that current timetables for the summer semester 2019 (and in the future) can be created by yourself. There is one exception for 1st-4th semester BA architecture students.

**It is very easy to do:**

Please register in TUM Online for the courses you wish to take via your "Studienplan".

Then go to the diary in TUM Online.

There you can choose the view (e.g. week / month ...).

You can always view your selected courses.

If something changes in TUM Online, it is automatically transferred to your calendar.

Please click on the link below to find more information about TUM Online

<https://wiki.tum.de/display/docs/Students>

When registering for the course, please take account of your respective examination regulations (Fachprüfungsordnung)

Master examination regulations:

<http://www.ar.tum.de/en/organisation-of-study-programs/master/urbanism-landscape-and-city-msc/pruefungsordnungen/>

**Important note**

Inform yourself about planned modules of your examination regulations. If you have completed a module you cannot take this module again. This also applies if the course is offered for a module with a different topic or subtitle. In the case of repeated occupancy of already completed modules, no credits can be assigned.
